

Sophia Alfred

Product Designer

Product designer focused on making complex products clearer, more intuitive, and more engaging. Currently at Cloudflare, working across data visualization, design systems, and 0-1 product development. Experienced in product design, information architecture, UX research, and designing for complex technical systems.

Design Experience

Cloudflare | Product Design Intern

June 2026 – Present | London

Data Visualization + Product Redesign

- Redesigned the landing experience for a global Internet data platform, creating a clearer visual hierarchy for complex, real-time data and making the experience more accessible to broader audiences. Design approved by Cloudflare's CTO and Director of Design Engineering.

Design Systems + Visual Language

- Developed a new design language for the platform, balancing Cloudflare's product system with the visual needs of a public-facing, data-rich experience and establishing a more cohesive foundation for future design.

User Research + Information Architecture

- Redesigned platform navigation by developing and deploying a custom UX testing app for card sorting and tree testing; translated user insights into a new content architecture that achieved **83% task success** when tested.

0-1 Product Development

- Designed user flows and UI for a new product from concept through MVP launch, working in a fast-moving cross-functional team and contributing to the foundation of the product experience from the ground up.

Memento | Product Designer

May 2025 – August 2025 | Boston, MA

- Led end-to-end product design for an early-stage AI journaling app.

Other Experience

Tufts University International Center | International Student Advisor

June 2023 – August 2025 | Boston, MA

- Advised 600+ international students on complex immigration and university processes.

Fulbright Spain | English Teaching Assistant & Regional Mentor

Sept 2021 – June 2023 | La Rioja, Spain

- Led orientation and community programming for 200+ Fulbright grantees and taught English to primary-school students.
